WORK EXPERIENCE DETAILS

April 2016 – Present

Accenture Solutions Private Limited

Senior Business Analyst

Project Role: Consultant, XL Catlin Insurance (Duck Creek Claims)

Deliverables:

- Responsible for investigating business situations, identifying and evaluating options for improving business systems, defining requirements and ensuring the effective use of information systems in meeting the needs of business. The role focuses on interaction on a regular basis with Business Owner from the client end to gather high level requirements.
- Performed Requirement elicitation to help project translate product requirements into application functional designs.
- To help project to verify/validate the product conformance to the requirements laid out by client and allow solution design and implementation to commence.
- Lead the offshore business analyst team. The role focuses on task assignment, quality analysis, and mentoring the team members to ensure that deliverables are being met.
- Responsible for release planning and work prioritization.
- Provided functional support to development and QA teams during respective phases.
- Preparation of Test Scenarios and test cases for testing the requirement changes being made and performed Unit testing for the completed enhancements.
- Responsible for Creating daily, weekly and monthly SLA and KPI reports to enable reporting at management level and ensuring that the targets of multiple stakeholders are being met.
- SPOC for Impact analysis discussions with other teams i.e. Performing Impact analysis for changes happening in the interfacing upstream and downstream applications.
- SPOC for defect triaging and remediation during functional testing and UAT phase. Coordinated with the test team as well as other application POC to check the daily status and report the same to the senior management of the project.

December 2013 – July 2014

Accenture Services Private Limited
